Getting Started with ForeFlight

Get up and running with the leading EFB with these simple steps!

Choose a Device

ForeFlight works with all recent iPad and iPhone models, and you can sign into your subscription on up to 2 iPads and 1 iPhone, or 2 iPhones and 1 iPad at once. If buying a new iPad, we recommend the Wi-Fi + Cellular version of either the 11-inch iPad Pro or the iPad mini to benefit from the built-in GPS chip.

FULL DEVICE RECOMMENDATION

Start Your Free Trial

Install ForeFlight Mobile EFB from the App Store on your chosen device and create an account to start your 30-day free trial. During the trial you'll have access to all the features available with our top subscription plan - Premium- so you can see everything the app has to offer before purchasing.

DOWNLOAD FROM THE APPLE APP STORE

Training & Support

Download the Pilot's Guide to ForeFlight Mobile in the Documents tab for the authoritative resource on all features, visit ForeFlight's online Video Library to watch tutorials, recorded webinars, and scenario-based presentations, and go to More > Support in the app to access these and other valuable support resources at any time.

Still stuck? Our expert Pilot Support Team is ready to answer any question you have at team@foreflight.com.

VISIT OUR SUPPORT CENTER

ForeFlight Web

Enjoy ForeFlight's powerful flight planning capabilities right from your web browser. Plan, file, and brief, then transition to your mobile device without missing a beat – your planning activity automatically syncs across devices. Planning on the web is available to all ForeFlight customers.

Subscription Plans

Starter

Basic planning, flying, weather, and logging for new student pilots and infrequent flyers.

BEST FOR: FLAT, RURAL, & FAIR-WEATHER FLIGHTS • PPL STUDENTS • INFREQUENT FLYERS

Basic Flight Planning & Filing

- Airport & FBO Information
- VFR & IFR Aeronautical Data
- TFRs & Graphical NOTAMs
- Route & Altitude Planning
- Basic Performance Calculations
- VFR & IFR Flight Plan Filing

Live & Forecast Weather

- Radar & Satellite Map Layers
- Interactive AIR/SIGMET/CWA Layers
- METAR-Derived Current Conditions
- Airport TAF, MOS, & Winds Aloft Forecasts
- NOAA & NWS Forecast Imagery
- 10-Day General Forecast

Maps, Charts, & Documents

- High-Resolution Basemap
- Street & Aerial Maps
- Government VFR & IFR Charts
- Airport Diagrams & Procedure Plates
- Aviation Documents & Chart Supplements
- Import & Annotate Documents

Moving Map & Inflight Features

- GPS Position & Altitude
- Customizable Instrument Panel
- Helpful Map Overlays
- Scratchpads & Map Annotations
- Taxi & Inflight Alerts
- Avionics & Portable Connectivity

Postflight Debriefing & Logging

- Track Logging & Replay for Analysis
- Export to CloudAhoy & Other Apps
- Digital Logbook with Auto-Logging
- Track Currency, Ratings, and Certificates
- Share with CFI for Review & Signature

Subscription Plans

Essential

INCLUDES EVERYTHING IN STARTER

Safety-enhancing hazard and situational awareness features for VFR and IFR pilots.

BEST FOR: XC, MOUNTAINOUS, URBAN FLIGHTS • HAZARD AWARENESS • IFR STUDENTS

Essential Hazard Awareness

Profile View

- Side-On View of Route & Hazards
- Depicts Terrain, Obstacles, Airspace, & TFRs
- Highest Point Displayed on Map
- Intuitive Multi-Altitude Planning
- Dynamic Flight Mode

Hazard Advisor

- Map-Based Hazard Depiction
- Dynamic Color-Coding by Altitude
- Preview Hazards with Altitude Slider
- Inflight Auto Mode Follows Your Altitude

Synthetic Vision

- Inflight 3D Hazard Visualization
- Includes Terrain, Obstacles, & Runways
- Displays Nearby Traffic Targets
- 360° Interactive View with Auto-Reset

More Dynamic Forecasting

- FAA Weather Camera Feeds
- US & Global Icing & Turbulence Forecasts
- Global Cloud Coverage Forecasts
- Surface Analysis & Isobars
- Crowd-Sourced Reported Turbulence Map Layer*

Must-Haves for IFR Flying

- Enhanced Approaches with Dynamic Procedures **COMING SOON**
- Georeferenced Procedure Plates
- Overlay Plates & Airport Diagrams on Map
- Easy Holding Pattern Setup

Unlock More with Sentry

- Backup Attitude Indicator in Synthetic Vision
- Crowd-Sourced Turbulence Reports
- Wake Turbulence Alerts & Map-Based Display
- Inflight Traffic Breadcrumbs on Map

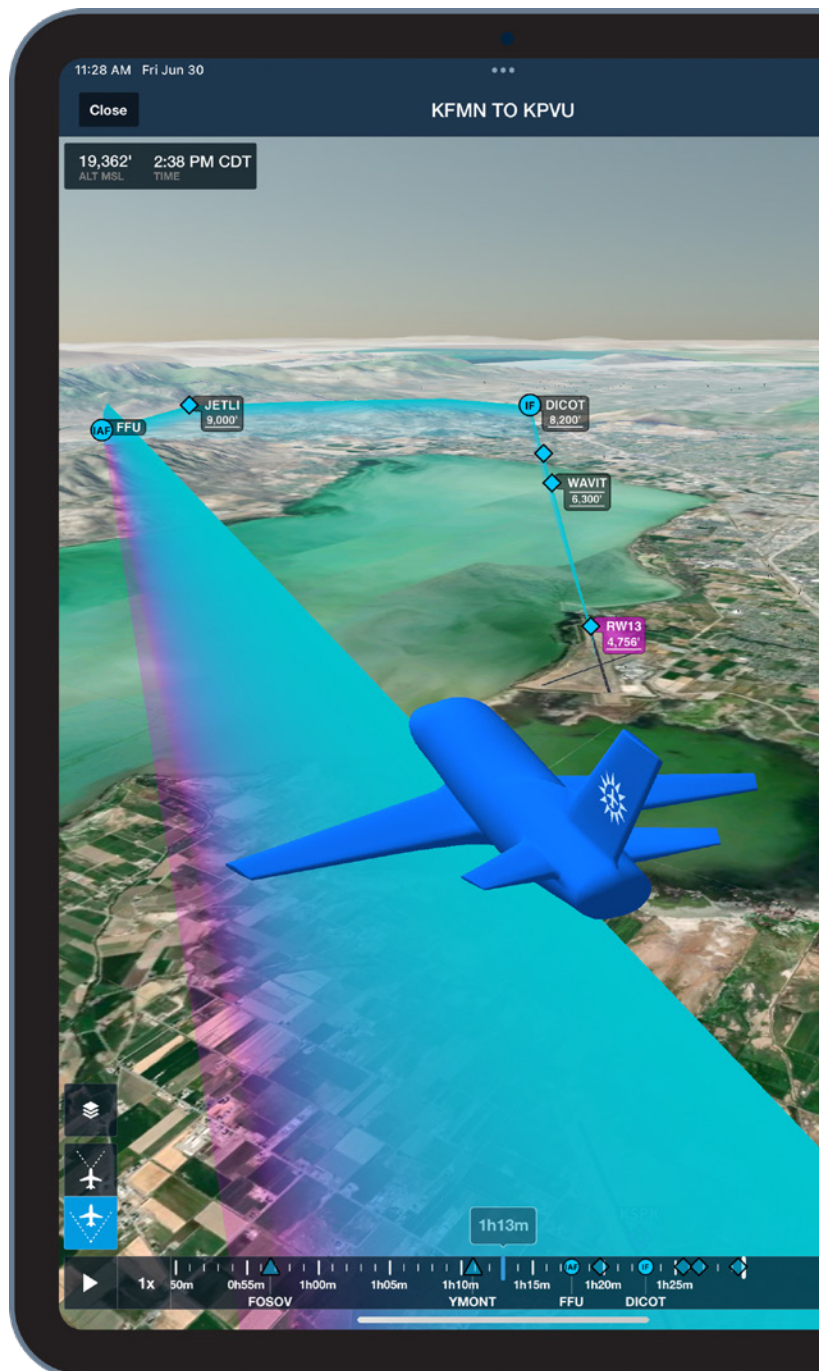

*Free with registration of Sentry or Sentry Plus device via foreflight.com/register-sentry, or as a paid add-on.

INCLUDES EVERYTHING IN **ESSENTIAL**

Refined flight planning and forecast visualization features for unrivaled preflight insight.

BEST FOR: EXPLORING NEW SKIES • MAXIMIZING PERFORMANCE • FREQUENT IFR FLYERS

Advanced Weather Visualization

- Icing, Turbulence, and Cloud Coverage Forecasts in Profile View & 3D Preview
- Multi-Altitude Windspeed Forecast with Animated Heatmap
- Multi-Altitude Temperature Forecast with Animated Heatmap
- Reported Turbulence in Profile View

Optimized Flight Planning

- Graphical Weight & Balance Planning
- High-Fidelity Fuel Planning
- Fuel & Weight Safety Checks & Warnings
- Calculate Takeoff & Landing Distances for Pistons
- Optimized Route Recommendations
- Operational Note Flags on Route

Immersive 3D Visualizations

- View Airports & Routes in 3D with High-Resolution Terrain & Aerial Imagery
- Airport Familiarization with live Traffic, Obstacles, and Runway Lights
- Preview Routes with Forecast Weather & Approach Fixes
- Replay Track Logs in 3D with Interactive Camera Modes

Turbine Aircraft Essentials

- OEM-sourced Aircraft Performance Profiles
- Integrated Jet-A Fuel Card Management
- Mobile Pre-Departure Clearance & Digital ATIS
- FMS Flight Plan Uplink
- Supports ForeFlight Runway Analysis

Jeppesen IFR Charts

Enhance your IFR flying with industry-standard Jeppesen charts, available as optional add-ons to any individual ForeFlight Mobile subscription. Coverages include departure, arrival, terminal procedures, data-driven enroute charts, airport charts, and Jeppesen Airway Manuals.

 **Worldwide** coverage also available. View coverages and pricing at foreflight.com/buy.

WAYS TO ADD JEPPESEN CHARTS IN FOREFLIGHT

Purchase Coverages from ForeFlight

New and existing ForeFlight Business customers can contact ForeFlight's Sales team at sales@foreflight.com to purchase chart coverages with their ForeFlight subscription. Individual customers can select and purchase chart coverages directly via foreflight.com/buy.

Link Active Jeppesen Account

In addition to buying directly through ForeFlight, you can also log into your Jeppesen account in **More > Jeppesen** using your Jeppesen username and password to activate and download existing chart coverages.

Download & View Jeppesen Charts in ForeFlight Mobile

Chart coverages are automatically queued for download after purchasing or activating them. Access Jeppesen charts throughout ForeFlight Mobile in the same familiar way you access government charts - Jeppesen charts are always listed first when available.

Why Choose Jeppesen Charts with ForeFlight?

As the leading choice among professional pilots globally, Jeppesen has earned a trusted reputation for more than 80 years of charting reliability.

FEATURES OF JEPPESEN CHARTS

1 Consistent, familiar chart format

Standardized for all countries to ensure easy understanding

2 Prominent ICAO/IATA Location Identifier

Quickly identify locations with clear, prominent labels

3 Briefing Strip Format

Improves readability & organizes information

4 Important Procedure & Altimetry Notes

Located front and center for quick access

5 Color Terrain, Obstacle, & Water Feature Depiction

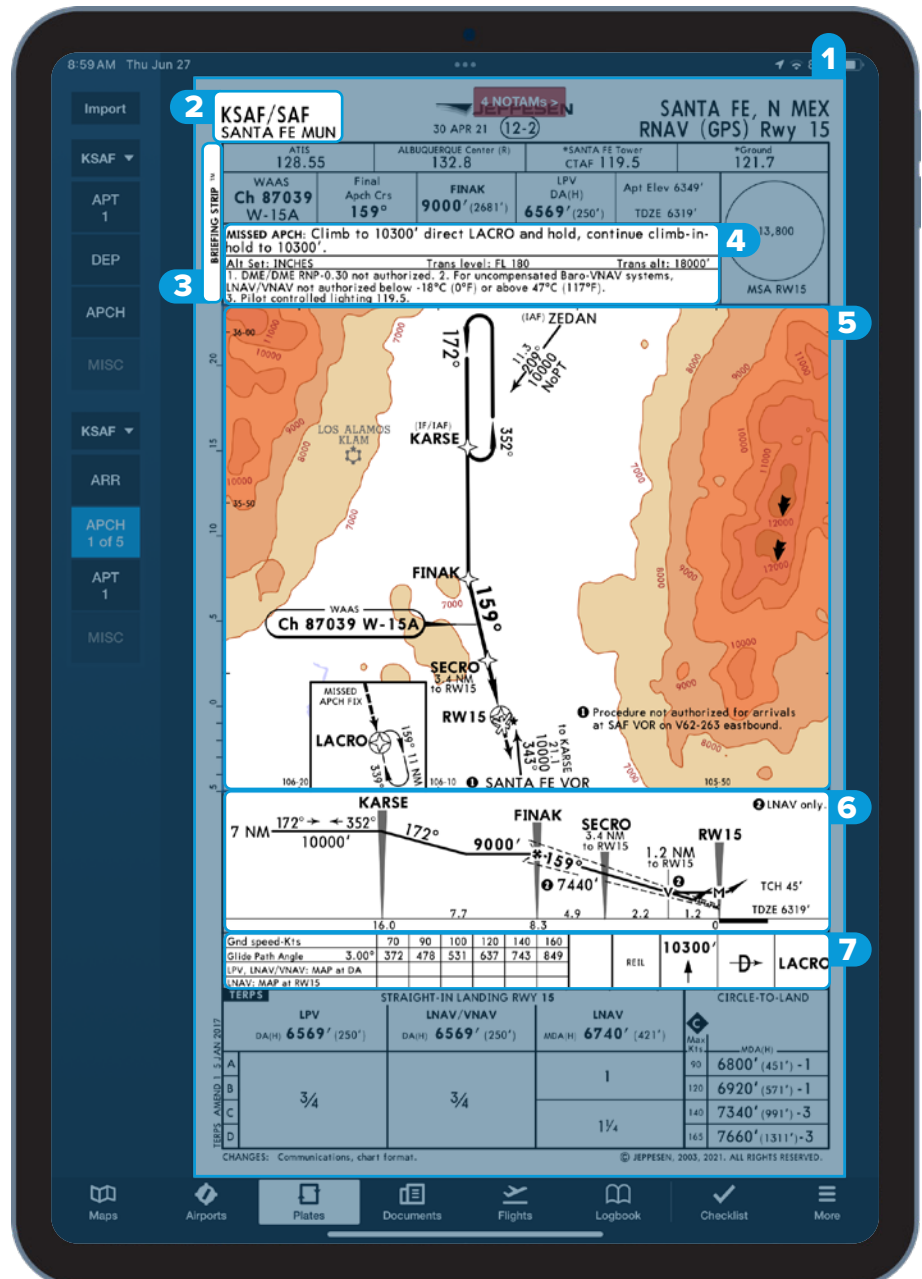

Provides clear visual references for safe navigation

6 Safe Altitudes & Procedure Altitudes

Clearly depicted to ensure flight safety

7 Ground Speed Box

Includes constant rate of descent calculations

Easy, affordable access to safety-enhancing inflight information

The Sentry family of portable ADS-B receivers delivers real-time weather, traffic, and more to ForeFlight Mobile on your iPad and iPhone.

Buying Subscription

Start at foreflight.com/pricing and follow these steps to customize & purchase your subscription.

1 Choose a Subscription Plan

PLAN LEVELS

Starter

USD \$125/YEAR • CAD \$175/YEAR

For basic flight planning, flying, & logging.

Essential

USD \$250/YEAR • CAD \$350/YEAR

Everything in **Starter**, plus safety-enhancing hazard awareness features, multi-altitude flight planning with Profile View, essential IFR features like viewing geo-referenced procedure plates directly on the map, and more.

Premium

USD \$370/YEAR • CAD \$518/YEAR

Everything in **Essential**, plus all the most advanced features like forecast visualizations in Profile and 3D, optimized flight planning with integrated Weight & Balance, takeoff and landing distances for pistons, interactive 3D airports and routes, and essential planning features for jet and turboprop pilots.

BACKUP DEVICES

All individual ForeFlight subscriptions can be used simultaneously on up to two iPads and one iPhone, or one iPad and two iPhones.

PURCHASE YOUR PLAN

Select the plan that fits your flying at:

foreflight.com/pricing

For **Business Aviation Solutions**:

ba.foreflight.com

For **Military Aviation Solutions**:

military.foreflight.com

2 Select your Region(s)

Each region provides government-sourced VFR and IFR enroute and procedure charts, airport diagrams, and documents as available. Visit foreflight.com/country-support to see what's available for your country.

- United States
- Europe
- Latin America
- Asia Pacific
- Middle East & South Asia
- Canada
- Australia
- Africa
- New Zealand

Subscriptions include 1 region; additional regions USD \$100 each.

3 Select Add-ons

Jeppesen Charts

Global IFR Enroute Charts
• Procedure Plates • Taxi Charts • Airway Manuals

Runway Analysis

Integrated Runway & Obstacle Analysis product for jets and turboprops. Requires Premium ForeFlight subscription.

Europe Only

VFR Charts

VFR Procedure Charts • VFR ICAO charts • Procedure Charts, AIPs, & Documents

FLARM License

Display FLARM traffic in ForeFlight Mobile from a Sentry Plus or SkyEcho 2 portable receiver.
